**Park District of Franklin Park
SPECIFICATIONS
TO RESTORE AND REPAIR EXISTING SLIDES**

GENERAL

The Park District of Franklin Park wishes to establish a contract with a qualified Contractor to restore (3) existing water slides to like original condition, located at the Pool on Pacific, 9715 Pacific Avenue, Franklin Park, Illinois 60131.

The slides were installed in 2009.

Manufacturer: Whitewater

1 Body Slide (blue)

1-32' Aqua Tube (yellow)

1 Drop Slide (green)

The typical operating season for the Pool on Pacific is from Memorial Day Weekend to Labor Day.

The Contractor shall furnish all equipment, material and labor for this project per the specifications as stated herein.

This is a prevailing wage project.

The work must be completed and the slide ready for use by the general public by October 31, 2017.

SITE INSPECTION

A site inspection is scheduled for Tuesday, September 5, 2017.

Due to the Contractor's responsibility for field checking dimensions, it is strongly recommended that each bidder visit the site during the pre-bid walk through to obtain first-hand knowledge of existing conditions, including the presence of structures, utilities, services, and obstacles which may be encountered as well as any other conditions relative to the work being performed.

Photos and / or video of waterslides will be provided if requested.

The Contractor shall hold the following licenses/registrations:

Contractor shall hold a valid Village of Franklin Park Business License or shall obtain a City business license prior to issuance of purchase order.

The Contractor shall provide the following insurance coverage;

General Liability

Automobile Liability

Worker's Compensation

Certificate of Insurance naming the Park District of Franklin Park as additionally insured.

SCOPE OF WORK

Work shall include, but not be limited to, pressure washing, sanding, application of gel coat, painting, and buffing of slide.

All work shall be performed in accordance with local building and fire codes, both state and federal.

Contractor shall be responsible for field-checking dimensions. Contractor shall be responsible for all measurements and quantities necessary to satisfactorily complete the job.

Prior to installation, the Contractor shall provide SDS (safety data sheets) for any hazardous materials; i.e., epoxy, fumes, etc. resulting from the installation process.

The Park District will:

1. Make available water which may be obtained from a hose bib.
2. Provide electrical that is within our means.

The Contractor shall:

1. Contain all contaminants so they do not enter the pool. All contaminants shall be disposed of in a lawful manner.
2. Inspect and identify areas of surface imperfections (scrapes, cracks, spider cracks, gouges, weak areas, delamination)
3. Assure all surface imperfections (scrapes, cracks, spider cracks, gouges, weak areas) are ground out with edges beveled, and repaired with 3M vinyl ester, marine grade premium filler or other Park District approved equivalent.
4. Pressure wash all existing interior and exterior surfaces according to industry standards.
5. Ensure all body oils, surface contaminants, and calcium deposits are removed from the slide interiors using descaling or degreasing agent. Surfaces shall be rinsed with clean water after use of descaling or degreasing agent.
6. Replace areas of delamination shall with 3M vinyl ester resin and fiberglass cloth or other Park District - approved equivalent. Any previous repairs should be completely reworked where necessary to ensure a safe, problem-free slide surface, free of scrapes, cracks, spider cracks, gouges, weak areas, fish eyes, and delamination. All fiberglass repairs are to be feathered and smoothed to an even finish with the surrounding slide surface.
7. Remove all old sealants from joints.
8. Sand and repair uneven poorly aligned joints as necessary. If an even joint cannot be attained without realignment of flume sections, the "high" joint must be before the "low" joint along the ride path.
9. If gel coat is damaged and needs repair sand the surface with 50-60 grit sandpaper. All damaged gelcoat should be removed, while leaving adequate profile (no less than 1 mil for adhesion of new gel coat layer)
10. Apply Premium Gelcoat (approved by the Park District) to be sprayed on the surface at a final thickness of 22-26 mils, with an additional 2-4 mils along the ride path. Gel coat thickness to be measured using a "wet film thickness gauge".
11. Buff interior water slide surfaces with orbital buffer according to industry standards.
12. Wet sand the entire interior water-slide surface by hand using 600 grit paper to remove small nicks

and imperfections. The sprayed surface shall be sanded free of SAG (orange peel) wrinkles, pinholes, craters, fisheyes, and airborne debris.

13. Re-caulk all joints with Sikaflex or 3M 4000, marine grade caulk or other Park District approved equivalents. Contractor must notify the Park District the number of days for sealant to cure before water can be turned on per the manufacturer's specifications.
14. Ensure all non-slip surfaces in the starting tubs are refurbished and maintain original manufacturer's slip-resistant standards.
15. Inspect structural hardware for scale, rust, oxides and corrosion. All hardware shall be tightened or replaced as needed. Replaced hardware shall be stainless steel, with like sizes, using never seize on all hardware.
16. Ensure all exteriors surfaces on the slides are brought back to like original color and protected from re-oxidation. Prime coat bare areas - paint with a Poly-siloxane paint or approved equal.

Bridging of joints is not permitted. Any excess sealant shall be removed manually by hand.

SAFETY AND PROTECTION

Contractor shall be responsible for initiating, maintain, and supervising all safety precautions and programs in connection with the work. Contractor shall take all necessary precautions for the safety of, and shall provide the necessary protection to prevent damage, injury, or loss to:

1. All employees on the site and others who may be affected nearby;
2. All the work and all materials or equipment to be incorporated therein, whether in storage on or off the site;
3. Other property at the site or adjacent thereto, including trees, shrubs, lawns, walkways, pavement, roadways, structures, pool decking, and utilities not designated for removal, relocation or replacement in the course of construction.

It is the Contractor's sole responsibility to comply with the rules and regulations of the Occupational Safety and Health Act (OSHA). Park District shall not be responsible for safety on the job.

IMPLEMENTATION OF THE WORK

The Contractor shall employ an ample workforce and provide the equipment necessary and of sufficient capacity and efficiency to accomplish the work in a safe and workmanlike manner at an appropriate rate of progress.

In the event the work is undertaken during adverse weather conditions, the Contractor shall be required to exercise precautions necessary to produce satisfactory work and shall protect the finished work from the elements. It is agreed and understood that the cost of these precautions has been included in the Bid for the various items of work in the Agreement and that no extra compensation will be allowed. Extra time will be granted for adverse weather conditions.

WORK SCHEDULE

Prior to commencing work, the Contractor shall provide to the Park District a detailed schedule of the proposed work. The schedule shall list include a list of tasks required to complete the work: their relevancy to each other: expected duration: and completion dates. The schedule shall include contingency

for optional work times.

The work must be completed and the slide ready for use by the general public by October 31, 2017.

All work must be done in a timely manner.

CLEAN-UP
